City Council

I apoeared at city council requesting thst the coucil pass an ordinance that requires that masks be worn in all businesses and non profits that serve the public as well as at outdoor public gathering places within distances of 6 feet.

I have left messages 3 times for my city council representative to check on the status of my request and have heard nothing from her.

This is unacceptable. Please provide me with an answer to my request to the proposal i made to city council.

Sincerely,

Marc Blumenthal
