ALTERNATIVE CREDIT OPTIONS

Credit may be earned through alternative methods outside of regular classroom-based instruction offered by the district schools. Awarding of credits to be applied toward high school graduation will be determined by the high school principal, and will be granted only if the request fulfills the following:

The request is submitted with a plan to achieve competency that meets or exceeds the rigorous academic standards required by the school for students enrolled in a credit course offered by the school.

- The plan includes clear expectations for performance.
- The plan includes clearly defined methods and expectations for assessment.
- Verification of the plan's merit can be evaluated in a timely fashion and does not cause unnecessary burden of the resources of the administration.

The School Board encourages increased educational options for hospitalized or homebound students, dropouts, suspended or expelled students, young athletes, or other atypical students for whom regular classrooms are not practical or effective. It is hoped that such offerings will serve as a motivator for students with different learning styles.

Students earning credit via alternative methods will participate in all assessments required by the statewide education improvement and assessment program.

The Board directs the Superintendent to establish regulations and procedures for implementing this policy that will include:

- Definitions of allowable alternative learning opportunities
- Reasonable limits on the number of approved alternative courses that can be administered each school year – school-wide and per student
- The number of alternative credits each student may use toward graduation requirements
- Application and approval process
- Criteria for determining which requests satisfy a particular subject area requirement
- Identification of person(s) responsible for approval, supervision, and monitoring progress
- Requirements that alternative opportunities meet the same rigorous academic outcomes as traditional classroom delivery
- Assurance of student safety including physical and technological
- Assurance of equal access for all students
- Assurance that approved alternative learning opportunities are consistent with all policies of this board
- The procedure will be made available to the public

It is the policy of the Board that alternative methods for the awarding of credit may include:

- Competency testing in lieu of enrollment under the provisions of Policy ILBAA
- Interdisciplinary credit
- Satisfactory completion of course requirements at
 - an approved school under the provisions of Board policy IK
 - an approved home education program (see Board policies IK and Board policy IHBG, and N.H. Dept. of Education Rule Ed 315).
