3. HEARINGS

- A. *Z22-03 Applicants John F. and Linda M. O'Connor, 48 Horne Street, (Tax Map 35, Lot 25), located in the Medium- Density Residential (R-12) Zoning District, requests a Variance from **Section 170-12.B.** to allow construction of a 14'x22' shed 5' from the side property lines, where 10' is required and to allow for the outbuilding to be closer than the principal building for the abut a street setback.

John O'Connor, 48 Horne Street presented the case, and reviewed the need for the shed on their property, which is a small lot. The home is on a corner of two streets. Under the regulations, the shed would be very close to his home and in the middle of his yard area. He expounded on his reasons for seeking variance and noted the three abutters wrote letters in support.

Mr. O'Connor answered some questions of the board members.

Public hearing was opened.

Planning Department recommendation: N. Kypfer noted staff supports the variance, referencing the three abutters did reach out and show support via letters. In addition, the placement of the shed will allow for space away from the brook that runs along the back of the property.

Public Hearing was closed.

Burdin found the argument compelling. Other homes are set close to the front setbacks, and this will not be inconsistent with the neighborhood. Corner lots are tougher to find shed locations because of the double frontage and setbacks. Denying the variance would create a hardship.

Onufry stated the request meets the five criteria.

Motion: Burdin moved to grant the variance with no conditions based upon the representations made by the applicant and the testimony provided. Onufry seconded. Vote: U/A
