Thank you for your time and consideration. I look forward to your response.

Best, Supporter and Dover resident Frankie Dominguez

The Issue

I am a local recruiter in Dover, New Hampshire, working hard to increase employment rates in our vibrant community. However, I have encountered a significant barrier that prevents our community from reaching its full potential - an urgent demand for an improved public transportation route stop to the industrial park based off Crosby Road. This area houses several businesses and manufacturing sites, forming the economic backbone of our city. Yet, lack of direct, convenient public transportation has proven to be a major deterrent to economical growth and advancement.

Both employees who depend on public transportation, and employers who desire a wider recruitment pool, face constant struggles due to this gap in our bus route system. With a greater public transportation network, not only can we enhance the lives of those using the bus route/stop, but truly enrich Dover's economic growth, and communal balance.

I am calling upon the City of Dover along with COAST Public Transit to recognize the immense benefits that adding a bus route stop to the industrial park would bring. It would not only unlock the door to employment opportunities for so many citizens, but also drive significant growth for local businesses. This would not just be a step forward; it would be a leap towards supporting our local community in the most holistic manner.

Please sign this petition to voice your support for a new bus route stop in Dover - a route towards economic prosperity and equal opportunity for everyone.
