

CITY OF DOVER

TRANSPORTATION ADVISORY COMMISSION CITY-WIDE TRUCK ROUTE ORDINANCE PUBLIC INFORMATIONAL MEETING

Meeting Type: Informational Meeting
Meeting Location: City Hall Auditorium
Meeting Date: **Monday, September 15, 2008**
Meeting Time: **7:00 pm**

There will be an informational meeting and question and answer forum hosted by the Transportation Advisory Commission regarding the proposed City-Wide Truck Route Ordinance. Text of the proposed ordinance language is available in the City Clerk's Office, the Planning Office and on-line on the City of Dover website at www.ci.dover.nh.us under City Council materials for the September 10, 2008 meeting under ordinances in their first reading, marked item number 11.a.1.

The public is cordially invited to attend and comment on this proposed ordinance. Maps will be provided.

Follows a synopsis of what the ordinance will do:

The roadway system within the City limits includes certain roadways, defined as state numbered routes, state maintained roads, and a minimal number of City streets so designated, that are adequately constructed, intended and designed for large and heavy commercial vehicles and that provide for travel and connectivity in east/west and north/south directions so that such vehicles can and should utilize those roadways, pursuant to exceptions for city vehicles, fuel delivery vehicles and public transit vehicles, in lieu of the other City roadways for the protection and preservation of the public safety and general well being of our citizens and preservation of costly roadway infrastructure.

Commercial vehicles weighing 26,000 pounds GVWR would be required to remain on the designated truck routes within the City until the nearest City Street intersection to said vehicle's destination.

This ordinance is intended primarily to curtail commercial vehicle through travel along local roads where there is no origin and/or destination for the vehicle on said local roads.
