

Reports from Doug DeDe

**McConnell Center**

McConnell Center Notes:

SAU has started basic construction of their new office space on the fourth floor of the McConnell Center

The Space for the new Comcast Telecommunications Center is to be located on the 3<sup>rd</sup> floor of the McConnell Center

The McConnell Center now has signage at the entrances

The McConnell Center is now recycling paper and plastics, thanks to the addition of the appropriate bins.

A second Dumpster has been installed at the Southeast Corner of the building which will facilitate trash removal from the Green Bean.

The Green Bean will be adding outside dining tables between doors two and three.

The striping of the parking lot has expanded the parking and is working well. There is still a need for more parking. The Oversight Committee has discussed the problem, but no solutions are imminent.

There will be an adjustment of the per square foot utility charge for all tenants in the building that will become effective on July 1, 2008 and all future adjustments will be applied as of July 1 to coincide with the City's budget process. The present total increase per square foot is going from \$10.40 to \$12.54.

**Solid Waste Advisory Committee**

The SWAC has recently decided to increase the cost of construction waste dumping from five cents per pound to six cents per pound after checking with other facilities in the area.

The SWAC has decided to issue Dover Stickers to those who register their automobiles during the coming year and after the year, no admittance will be permitted to the site without the sticker. There will not be any charge for the stickers at this time.
