10/07/08

Dear Bruce;  
I attended the TAC meeting last evening with several other citizens of Dover who are involved in the trucking industry. We all felt very good about the way the committee listened to our concerns and amended parts of the Ordinance to better serve the interest of all taxpayers in the City of Dover. Please accept our sincere thank you to all members of this board and rest assured our goal will be to continue to abide by and respect this Ordinance. The safe uninhibited travel of vehicular traffic assures us all a business environment that promotes our industry and does not degrade it. Please let all concerned parties know that they may contact us at any time to tell us of any problems relating to truck traffic under our control. Again, THANK YOU for serving the taxpayers of the City of Dover.

Respectfully:

David A. Cluff- Brox Industries

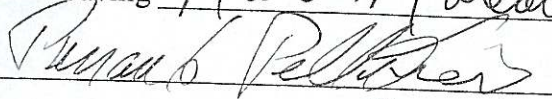

Ken Durell- Durell Paving

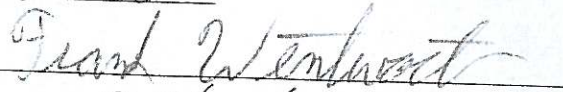

Marc Moreau- R&M Paving

Renaud Pellitier

Frank Wentworth-Frank Wentworth Const.

Dennis Thornton-Tri-County Quarry
