

HI-WAY SAFETY SYSTEMS, INC.

TRAFFIC MARKING CONTRACTORS

March 25, 2009

City of Dover, NH
City Council

We at Hi-Way Safety Systems Inc. feel our 3/10/09 Long Line Pavement Markings and Hand Pavement Markings bids are the most advantageous bids submitted to the City of Dover. Along with having the lowest bids submitted, we feel our quality and supervision cannot be matched by any other company.

Knowing about City of Dover's concerns about supervision after the dismissal of Mr. Fowle, previous Job Supervisor, rest assured these jobs will have appropriate supervision. Hi-Way Safety Systems' work will be supervised by either Jack Sheldon, Quality Control Manager, or Kenneth Horn, Owner-President of Hi-Way Safety Systems.

Sincerely yours,

Kenneth Horn
President
