

Seiler - Citizen, Taxpayer, Gadfly.
28 Isaac Lucas Cir.

Whereas I am constantly referred to as the "GADFLY" of this city by both a past member and some present members of the City Council..

I would like to make every citizen and taxpayer in this City aware that I do have the true figures that verify everything I have expressed at every meeting. Again, you may contact me anytime to discuss this.

I am a citizen of Dover, a very large taxpayer, paying my taxes as requested and am allowed, by law, to express my concerns, like other citizens, without being referred to through derogatory comments. I would appreciate it if you would respect this right to which the constitution allows.

At the same time, I would like to thank the vast majority of the citizens who have called me., written to me, and e-mailed me, supporting my position regarding overspending of this City.

My real objective, here tonight, is to inform you that of the 14 New Hampshire towns above the 15,000 population, we are the 12th highest taxed population in the State. The lowest tax rate is in Salem, N.H at \$14.05 whereas the City of Dover is \$23.32. This results in an increase between these two cities of \$9.27 per thousand.

The average home evaluation is stated to be approximately \$253,000 Multiplied by the \$9.27, results in you, the taxpayer, making payments

**difference with Salem that I mentioned. Wouldn't this feel good in
YOUR pocketbook???**

**In closing, there is no need for a spending override. There is No need
to burden the taxpayers of Dover with any higher taxes adding to
the enormous taxes we are paying at this time. I hope you make
strong consideration of this request.**

**Respectfully submitted to all of you, as a citizen, a high paying
Taxpayer and NOT the referred to GADFLY that some of you so
unprofessionally refer me as.**
