**Subject:** Re: Washington at Arch

Good morning,

I understand from reading the agenda of last night's TAC meeting, that the Arch Street intersection was up for discussion under old business. I was not able to attend due to work considerations. I would like to continue to stress that this intersection is treacherous. I have noted numerous new crosswalk signs all over the city, and yet this one remains with the old signage. Will this be addressed soon? School will be starting soon!

I wish I could say that we have seen increased traffic patrols on Arch Street and Washington Street area, but none of our neighbors have seen such. Cars and noisy trucks and motorcycles continue to speed on Arch and Washington.

Neighbors are supportive of the proposed 3-way stop at this intersection and look forward to the traffic count study by SRPC

Again, thank you for your consideration and service to the residents of Dover.
