

To the Honorable Mayor and City Council
City of Dover, New Hampshire
Dover, New Hampshire

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Dover, New Hampshire as of and for the year ended June 30, 2013. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, *Government Auditing Standards* and OMB Circular A-133, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated May 30, 2013. Professional standards also require that we communicate to you the following information related to our audit.

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the City of Dover, New Hampshire are described in Note 1 to the financial statements. As described in Note 1 to the financial statements, three new accounting policies were adopted: Government Accounting Standards Board (GASB) Statement No. 61, *The Financial Reporting Entity: Omnibus an Amendment of GASB Statements No. 14 and No. 34*, GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources Deferred Inflows of Resources, and Net Position* and GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*. The application of existing policies was not changed during the year ended June 30, 2013. We noted no transactions entered into by the City during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimates affecting the financial statements were:

Management's estimate of the landfill liability is based on a study from the City engineer and review and approval from the Environmental Protection Agency. We evaluated the key factors and assumptions used to develop the landfill liability that is reasonable in relation to the financial statements taken as a whole.

Management's estimate of the accrued compensated absences, which is based on prior service performed and the contracts with the employees. We evaluated the key factors and assumptions used to develop the compensated absences accrual in determining that it is reasonable in relation to the financial statements taken as a whole.

Management's estimate of the allowance for doubtful accounts for ambulance services is based on aging analysis of receivables, historical loss levels, and an analysis of the collectability of the individual accounts. We evaluated the key factors and assumptions used to develop the allowance in determining that it is reasonable in relation to the financial statements taken as a whole.

An Independently Owned Member, McGladrey Alliance

McGladrey Alliance is a premier affiliation of independent accounting and consulting firms. McGladrey Alliance member firms maintain their respective names, autonomy and independence and are responsible for their own client arrangements, delivery of services and maintenance of client relationships.

Certain financial statement disclosures are particularly sensitive because of their significance to the financial statement were:

We consider the disclosure of the landfill liability in Note 14 to be sensitive and significant to the financial statements for the user of the financial statements to understand the potential liability for post-closure care.

We also consider the disclosure of the post-retirement health care liability in Note 17 to be sensitive and significant to the financial statements for the user of the financial statements to understand the potential liability related to benefits provided to retirees.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. The attached schedule summarizes uncorrected misstatements of the financial statements. Management has determined that their effects are immaterial, both individually and in the aggregate, to the financial statements taken as a whole. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to the financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditors' report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated January 7, 2014.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the City's financial statements or a determination of the type of auditors' opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the City's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

With respect to the supplementary information accompanying the financial statements, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, OMB Circular A-133 and *Government Auditing Standards*, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information and schedule of expenditures of federal awards to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

This information is intended solely for the use of the City Council and management of the City of Dover, New Hampshire and is not intended to be, and should not be, used by anyone other than these specified parties.
