

HAVE A STUDENT IN NEED?

The Dover Alternative Program services students identified as needing an individualized educational program or 504 plan based on special education requirements. We provide therapeutic interventions addressing the social, emotional and behavioral needs of our students in addition to their academic challenges. Students who are struggling with school success may be referred for possible acceptance to the Dover Alternative Program.

Dover Alternative Program

At Dover High School

**Meeting the Needs of
Non-Traditional Learners**

WHO WE ARE

The Dover Alternative Program is an approved special education program within the Dover School District. The program was established in 1991 to provide learners, with challenges, an alternative to the traditional academic setting. We are dedicated to fostering student potential in all areas of functioning. Our program services students from neighboring school districts in addition to Dover.
