

Dover Elementary Schools

Dover Elementary Schools pride themselves on being student centered places to learn and grow. All three elementary schools share the same curriculum as well as most programs. Dover Schools have our own reading and writing programs called Dover's Growing Readers and Dover's Growing Writers. We use the Math in Focus curriculum K-8, and Foss/Delta programs in science. All three schools offer the same related arts for students as well. Once a week, students attend Art, Library, Music, PE, and STEM (science, technology, engineering, and math).

	# of Students	# of Classroom Teachers	# of total Teachers	Administration	Grade Levels	Average Class Size K-4
