March 15, 2016

This letter is to affirm Dover High School's understanding of and support for a research project entitled "An Examination of a High School Unified Physical Education Program" to be conducted by Charlotte Osborne and Samantha Gage under the supervision of Associate Professor Michelle Grenier. The study will ask both mentors and mentees about their experience in the Unified Wellness Program and the impact the program has on the school community at-large. Mentees will be asked to respond in a manner that corresponds to their cognitive skills, with options for physical, picture selection, verbal, or written responses. As appropriate, students will be provided with the aide support they need to complete these tasks. Ms. Osborne and Ms. Gage are interns at Dover High School this semester and are familiar with the students and the program. We look forward to learning about the impact of this program and ways in which we may continue to support an inclusive environment here at Dover High School.

Sincerely,

Peter Driscoll
Dover High School Principal
