Subject: Transportation Advisory Committee - Public Workshop: Transportation Chapter

Hello Folks.

We are reaching out to update you as to the status of the Master Plan Chapter.

Public Workshop

At 6:00 pm on May 23rd in the City Hall Council Chambers, the Transportation Advisory Committee (TAC) will be “hosting” a presentation by VHB on the status of the Chapter. This is a public meeting and will serve as the public workshop to present the work that has been done thus far and to receive input. The TAC will address a few housekeeping items to begin the meeting but then the focus will be the Master Plan Chapter.

The public workshop will involve a presentation by Robin to the TAC that will run about 30 minutes and will begin with an overview of why this project is underway and how it was approached. Then, the presentation will discuss the topics/issues that are addressed in the Chapter. The idea is that at the end of the presentation, anybody in attendance will have a good feel for the contents of the Chapter. After the presentation, there will be an opportunity to review materials and ask specific questions of the consultants in adjacent rooms.

Survey

Around the time of the TAC meeting, we will be posting material online along with a survey to allow people to comment on the materials and recommendations proposed thus far.

Final Steps

Once the survey is taken down, VHB will prepare their final recommendations based upon work done thus far, comments received at the workshop and feedback from the survey. VHB will present this final set of recommendations to the Committee at a meeting to be scheduled this summer. Depending upon the outcome of that meeting, final edits will be made and then the proposed Chapter will begin the process of review and adoption by the Planning Board.

We hope you are able to attend the meeting of the 23rd. However, if you are not able to attend, please feel free to contact us before or afterwards if you have any questions.
