4. Review of Park Building Schematic Design Options

Lake reviewed the design of the park building using a PowerPoint presentation. . Since the previous plan I have flipped the location of the bathrooms and concession area and moved the porch stairs to the river side. He presented three options for the architectural design for the committee to consider.

Committee discussed the various options and their pros and cons.

Martel: We are coordinating the design plans with DES for park and building layout so decisions have to be made in those areas soon. The exact elevation design can change moving forward.

Consensus was that the first option presented was the favorite. Discussed color options other than red.

Stairs up to the walkway near the crossing would help with pedestrian flow.
