Subject: Budget

Security Notice: This email originated outside the City of Dover mail system. Please use caution with hyperlinks or attachments.

Please keep the budget at the tax cap for the citizens of Dover that can't take many more increases in their tax bill. It is embarrassing to constantly hear from other communities that question why bother voting if the council just ignores the voters. Everywhere you look there is new construction going up, I would think that revenue would help keep taxes in line, but apparently not. I have a budget and I have to stick to it, time to say no to all the out of control spending....
