Subject: Budget 2021

Security Notice: This email originated outside the City of Dover mail system. Please use caution with hyperlinks or attachments.

Unable to attend but want to be very clear: No amount over the tax cap is acceptable. Find 1.2mm to cut because the budget has been a runaway horse for the last several years.

We need a respite from these increases, particularly this year, facing lost wages as the pandemic has changed our daily lives.

A report of the findings of the joint subcommittee should be made available to the public as soon as possible.
