Dear City Council Members,

I think you might be interested in the photo below. After watching Public Health employees in front of my house this a.m. not social distancing and/or wearing masks, I went out and took a photo. There are actually four people in the photo....the two on the left are so close it looks like only one person.

As a Dover citizen who is doing everything in my power to stay home during this pandemic, I find this behavior troubling, to say the least.

It is not my intention to get any employees in trouble but these are unusual times and therefore as a citizen of this town, it is my responsibility to report this and make sure that these employees have the necessary training or retraining re: safety issues and Covid-19.

Nancy Johnson
