Dover City Council
Dover, NH

Council members:

Ike cannot attend tonight's meeting, but want to add our support for the Mounted Patrol unit of the Dover Police Department. Ike have both been active in helping with events held at the stables and have witnessed the support given to the patrol by community members. Ike feel that the Patrol is a valuable asset to the city and the officers contribute greatly to public relations. They are more approachable and visible than going by in a patrol vehicle. They can also go where a vehicle can't, and that is very important in so many situations that can arise.

Ike feel strongly that it would be a mistake to disband the Mounted Patrol and a great loss to the city.

Thank you for your consideration on this matter.
