Hello City Council Members,

I am writing in support of the Dover Mounted Patrol.

I first moved to Dover almost exactly one year ago, and the first person to greet my mother and I after we moved in was an officer of the mounted patrol. She was so welcoming and friendly, and it was a memory I will never forget! My mother, who lives in Maine, was so touched by her kindness and felt confident leaving me at my new apartment, knowing I had moved to such a lovely and welcoming place! The first impression the mounted patrol made on me and my family was priceless. This unit is one of the many things that makes this city and this community so unique and interesting, and it would be a shame to lose the mounted patrol.

Thank you so much for your time!
