Good Evening,

I wanted to express my thoughts on the Dover Mounted Patrol. It is such a unique, positive presence in our city and it connects our residents to the police. It's heartening to see kids and adults gathered around the horses and talking with the officers.

I understand that the majority of the costs to maintain the horses are covered by volunteers and donations, and hope the city will allocate any remaining funds needed to keep it going. It would be a great loss for the city if the Patrol should be shutdown.

Thank you,
Laurel Severson
