Dover City Council,

I am a resident and downtown small business owner. I urge you to continue the Mounted Patrol in our city, we need it even more after this pandemic and the human rights crisis to be a visual representation of our local force as an approachable image to our citizens and their children. My heart broke when I heard they might be discontinued because I see them almost every day and looked forward to seeing everyone enjoy their presence in our beautiful city. It wouldn't be the same without them.

Regards,

Jackie Scott Kay, LMT
