With the importance, especially today, of community police programs, as a 30+ year resident of Dover I urge the return of the Mounted Patrol. It is a wonderful program that really connects the police with the city residents in a very positive way. I understand the support of the horses is primarily through donations from businesses and individuals, I also understand there is federal financial support for community police programs. To utilize this source of funding for this program I feel is best. Please bring this program back as soon as the Covid 19 pandemic is under control. Thank you.
Paul Skvirsky, Piscataqua Rd, Dover.
